

LEBANON COUNTRY CLUB
FRANK KUHN POOL

Inclement Weather Protocols

- The pools shall be cleared upon the detection of thunder, lightning, or the sounding of a single blast of the pro shop storm alert horn, whichever occurs first;
- The staff may use lightning detection devices, or other sources to determine if the pools or pool area should be cleared;
- The pools must remain cleared for a minimum of 30 minutes; any subsequent thunder or lightning after the beginning of the 30 minute count will reset the clock and another 30 minute count will begin;
- It is equally important to vacate the areas around the swimming pools;
- If necessary, the staff may require you to vacate the pool area, and might require you to seek shelter in other areas, such as your vehicle, the clubhouse, or other locations;
- The safety of our members, guests and staff are our priority.
